GODFREY SAMUEL

Software Engineer

📞: +2348082358376 ✉: godfreysam09@gmail.com 📍: Abuja-Nigeria

ABOUT ME

Over the past three years, I have worked on projects and serviced clients which have helped me honed my skill as a software engineer and web developer.
I have developed a good track record with technologies such as HTMl, CSS, Jquery and JavaScript both on the frontend and backend using Node.js, Express.js and Handlebars as template engine for server-side rendering, I have also worked with databases such as NEDB for in-memory data storage and management, MongoDb and Mongoose for larger datasets at the backend, Graphql, Axios and browser inbuilt fetch API.
I believe I have a lot to offer as an engineer who has been working hard at his craft; I have a quick grasp of new concepts and technology which is why I am working hard to build a successful career as a software engineer and hopefully be reckoned with as an expert in my field.

WORK EXPERIENCE

Esty Telecom

Entry level | Software developer
Abuja, Nigeria
2020-01-01 | 2020-09-01
Software developer, and Data sorting

Founder and Manger epinsorter.com
